Dallas with his wife,
daughters, and Finn

My name is Dallas Erickson and I was born and raised in Utah and I currently reside in Eagle Mountain, Utah. My wife and I have been married for 9 years and we have been blessed with three daughters. My profession is in Information Technology (IT) managing web content.

Growing up my family raised Dachshunds. Nothing to do with hunting but just the mere fact of having a family dog. It has been almost three years since I was first introduced to the Deutsch-Kurzhaar breed by Tyler Smith of Vom Hochland. Watching young pups prepare for their derby was fascinating to me. How a bloodline can have such natural ability in the field was something I wanted to learn more about. I would spend a lot of time with trainers and their dogs and

aside from the outstanding hunting ability that they had these dogs were also very kind and loving in the home. Having young children that was important to me, that a dog can turn it on in the field and off in the home. I got our male Bodin, of Vom Hochland DK or we call him Finn.

I grew up playing a wide variety of sports and fishing. I had never been hunting or seen a dog hunt my entire youth growing up, so every time out with Finn is something new. After I was married, I got more introduced to the hunting game and started to peak a lot of interest in it. I now spend time looking for places to go hunting and hiking with my dog all around Utah. I desire to continue to learn about the Deutsch-Kurzhaar breed and to make new friends. I have enjoyed being part of this DKGNA Club and look forward many years of experiences and memories.

Bodin vom Hochland
aka Finn
