

DKGNA Litter Breeding & Regulation Process

by Randall Cherry

It is the time of year that our members are breeding, registering litters, and raising puppies. In an effort to make the process more seamless I have attempted to develop a matrix that will simplify the process and make it much easier for the breeder and myself.

Please take the time to review the information posted on our website. [**Click here to be directed to the “DKGNA Breed & Litter Registration Process”**](#). After reviewing the information if you have any questions please email me directly at: breedwarden@dkgna.org or call me at 703-244-2949.

We wish all of members great success with their planned breedings and litters.
