

# 2023 NAKP

## Hosted by the DKGNA

We are having great response to the 2023 North American Kurzhaar Prüfung taking place October 20<sup>th</sup> and 21<sup>st</sup>, in Walla Walla, WA. We are hopeful that we will be able to accommodate all entries. We are limited as to the number of dogs that can be evaluated by each judging group. We would like to run four dogs' group with a maximum of five. The question will be how many judging groups we will be able to field. We encourage all interested members to get your entries in early to secure your spot in the test!!!

The rules for the NAKP were adopted in 2013 and state to provided dogs from North America that cannot participate in an Internationalen Kurzhaar Prüfung (IKP) for monetary reasons are given the opportunity to show their hunting suitability and aptitude at the NAKP.

The test regulations for this test are the same as for the Internationalen Kurzhaar Prüfung (IKP) with identical entry qualifications. The entry qualifications are:

- (1) The test is open to all dogs registered in the Deutsch-Kurzhaar studbook fulfilling the following admission requirements. The dogs must have:
  - a) achieved at least two 1st prize scores at two different of the following tests: Derby, Solms or AZP, VGP, whereby a single repetition for each test is allowed.
  - b) received a conformation score of at least "SG" (Sehr Gut = Very Good).

Instead of the Herbstzucht Prüfung Solms (Autumn Breeding Test Solms), the Jagdgebrauchshundver-band's Autumn Breeding Test is also recognized if the performance in all test categories needed for a 1<sup>st</sup> Prize at the Solms is achieved (very good performance (sehr gute Leistungen) = score of 9 to 11 in the HZP test categories).

***The admission requirements must be fulfilled by the entry date, which will be September 13<sup>th</sup>.*** By setting the entry date on September 13<sup>th</sup> it allows for dogs to participate in two DKGNA Solms/AZP tests prior to the NAKP entry date, allowing them the opportunity to qualify. Entry Fee for the NAKP will be \$200.00. When submitting your entry you need to submit your Test and Zuchtschau Scoresheets from the test that makes your dog eligible. [\*Click here access an entry form for the NAKP.\*](#)

The test rules are basically a Solms, without the drags, and with a feather game retrieve from deep cover. It is the expectation of the judges that the dogs will preform at a higher level than the Solms. [\*Click here to read the IKP/NAKP regulations.\*](#)

We encourage all DK owners to prepare your dogs for this event. The NAKP only happens every two years. The Kleemann is the only DKV test that holds a higher status than the IKP/NAKP.

The NAKP will take place in conjunction with the DKGNA Annual Meeting. Additional information will be forthcoming. [\*Click here to see the itinerary for the NAKP/DKGNA Annual Meeting.\*](#)
